During this introductory session, we will provide an overview of the OnCore system, highlight key features, and share essential information to ensure a smooth transition for your teams. We encourage all members of the research community to attend, as the session will cover:

- **Roles in OnCore:** Understand the specific roles and permissions that will be available to your teams within the OnCore system.
- **System Familiarization:** Gain a high-level understanding of how OnCore operates and its key functions.
- **Canvas Training:** Learn about the upcoming Canvas-based training modules that will provide in-depth knowledge for your day-to-day tasks in OnCore.

- **Workflow in OnCore:** Explore how OnCore will be integrated into your research workflow, from study startup to financials and close-out.
- **Resources Available:** We will introduce critical resources, including:
 - **Onsemble Community:** A platform to share best practices and connect with other OnCore users.
 - **Learning Portal:** Access to video tutorials, user guides, and FAQs.
 - **SharePoint:** The central hub for all OnCore-related documents, policies, and announcements.

Next Steps:

Following this introductory session, the formal training program will launch, featuring specialized tracks and modules tailored to your specific roles and responsibilities in the system. This training will be available to your team as you are onboarding a new protocol.
